I folded the T-shirt that you sleep in
And picked up the bottoms on your side of the bed
Checked my phone and got my coffee alone
And had last night stuck inside my head
My fault and your tears on our 8 year
My timing isn't perfect and my mouth is better off dead
The future is still a mystery and the two of us will be
what we're going to be
But for now it's a little space instead

But I want you to know
You'll still be with me if you go
And I'll still be me
Just incognito
I'll wait right here
And rely on our loving years
I'll sing it now and remind you of it then
If you come around again
Because this isn't how it ends

I'm not walking out the door
Because we've done this before
So maybe this had to happen
Because we had more to learn?
You're the one who knew
And had faith in me and you
The night I got your random call
Is when I knew it all

Now I'm wearing the T-shirt that you sleep in
And for the first time in my life
I smell like your side of the bed
