Some say all my dreams are gonna disappear there's  
No way I'm gonna make it out of here but  
I say I'll hear what I wanna hear no doubt  
I see lights in the future calling me yeah  
I need a little more space, room to breathe I  
Won't be looking from a distance, knowing that I'm  
missing out  
Would be wisdom criticisms make me wanna scream

(Chorus)

This is my life I've got the right to make the most of it  
It's gonna rain I'll feel the pain but I will never quit  
Gotta dream gotta take a shot, no sense in being what  
I'm not  
Not scared to get it while it's hot, I could play it safe...  
No Way

This road's feelin kinda like an open door  
Just go and I'll never wonder anymore yeah  
I know I'll find what I'm looking for somehow  
Green light, there's no need to hesitate  
This night I'll hit the gas forget the brake yeah  
That's right, I'm not gonna stop till the interstate runs  
out  
Wheels are turnin', bridges burnin', let 'em melt away

I'll follow my headlights cuz I know it feels right, yeah
