Visit "[Beatitude](#)" on MotoLyrics.com

Wandering the wreckage, losing all our leverage
We the poor cry out: "No God but You can save!"
But strength is found in weakness, the greatest one the
least is
Oh how blessed are the meek and those that grieve

And every time we hear Your Name it calls to mind
That the day draws near when the world is redesigned
Love has made a total change, we're redefined:
I am my Beloved's and my Beloved's mine

Let us never waver, suffer like the Savior
You can use our broken hearts and broken bones
Stepping out of boxes, taking up our crosses
You can use our reaching hands and open homes

And every time we hear Your Name it calls to mind
That the day draws near when the world is redesigned
Love has made a total change, we're redefined:
I am my Beloved's and my Beloved's mine

Hope in transformation, we're the new creation
Let the life of Christ soak deep like DNA
The Spirit resting on us, on fire like a forest
Flames dance, clap your hands for the new day

And every time we hear Your Name it calls to mind
That the day draws near when the world is redesigned
Love has made a total change, we're redefined:
I am my Beloved's and my Beloved's mine
He's mine, He's mine

Every time we hear Your Name it calls to mind
That the day draws near when the world is redesigned
Love has made a total change, we're redefined:
I am my Beloved's and my Beloved's mine
