This is the mystery of love divine
This is the mystery of bread and wine
This is the glory of the Son of Man
Standing in victory at God's right hand

This is forgiveness for the things we've done
This is a witness to our pardon won
This confession of our trust in Christ
This is the way we go from death to life

Taking the bread, taking the cup
Thanking the Father and giving them up
We who were dead, live by this love
Precious Redeemer we can't thank you enough

This is the covenant in Jesus' blood
This is the body offered up for us
This a love that you can touch and taste
This is the engine of amazing grace

One loaf divided into many parts
One Holy Spirit beating in our hearts
One sign of unity, one sign of peace
Each one invited to the Paschal Feast.

Taking the bread, taking the cup
Thanking the Father and giving them up
We who were dead, live by this love
Precious Redeemer we can't thank you enough

Sunup, sundown, two more jewels
in Your crown
From day to day, let the Name of the Lord be praised
