1st verse:

Do you feel the way I feel
You were there for me when I lose hope
I wish the time that pass each day
Will flow slowly with you here in my heart

Chorus 1:

Your the star. I wished
That I can give my whole life with
I love you, It's endless
And will never be erased
In my heart

2nd verse:

Baby hold me I kiss you gently
The sound of kiss we made
Can make us fall
I was amazed, I didn't notice
How this love can grow and make it last

Chorus 2:

All I know is you
My love will last, time won't pass
I miss you, so crazy
I'm inlove with you perfectly

Bridge:

Each day I saw my open arms
My arms desires, I need to hug you tight
And now you have me
And I have you
No need to worry about
And now you save me
You light my life in darkest night

(Repeat chorus1 2x)
