Leather looking glass  
Still scared of what I'll find  
Scattered mess in my mind,  
the memory of goodbye  
and the sun on your face  
I left on a monday... (too fast)  
When I told you I loved you... (won't last)

(chorus)  
Now it feels like rain  
It feels like rain  
It's what feeds the flame  
Now it feels like rain

Still drunk and fast asleep  
I stumble up the aisles (to where)  
And I left on a monday (too fast)  
When I told you I'd miss you

(chorus 2)  
Now it feels like rain  
It feels like rain  
It's what leads the fire on  
Feels like rain

Now it's getting hard to breathe
