[chorus]

Aaron Moore is a new groovy kinda guy  
Once before he was down below  
Now he's above the sky  
So when your friends shout my name  
You know what to do  
Smile widely and shout to them  
I love that guy too

[verse 1]

Yes I know I've changed, it's for the best  
I can see it in your eyes, you need some rest  
So before you tell me how to live my life and what to do  
Maybe you should understand you don't have a clue

[chorus]

Aaron Moore is a new groovy kinda guy  
Once before he was down below  
Now he's above the sky  
So when your friends shout my name  
You know what to do  
Smile widely and shout to them  
I love that guy too

[verse 2]

Are you getting the picture my sweet cherry rose?  
Why are you so clueless? Only god knows  
If ya wanna be my girl if you know what I mean  
Then come on baby just don't turn green

[chorus]

Aaron Moore is a new groovy kinda guy  
Once before he was down below  
Now he's above the sky  
So when your friends shout my name  
You know what to do  
Smile widely and shout to them  
I love that guy too

[verse 3 (rap)]

I'd like to get to you a little bit more  
I'd like to get to know you with your clothes on the floor

You know my name  
What you don't know my name?  
Girl you will be knowing it when you know my game  
If you want a bit of me  
Then baby don't resist me  
If you like it kinky  
Then that's cool with me. Baby I ain't tinky winky
