She's lost Words mean nothing She's lost

She's lost Words mean nothing She's lost

She didn't want to conquer you Another misconception It tasted strange She can't explain But it's all forgotten now

Her fingerprints
Are on your hands
That's all she's left for you
You just untangled all her words
They're inexpensive now

She's lost Words mean nothing She's lost

She's lost Words mean nothing She's lost

You walked the world It's almost over now Your satellite escape each day

You've got an alpha female muse A little introspection She isn't there to be misused The shallowest reflection

She's lost Words mean nothing She's lost She's lost Words mean nothing She's lost

She's lost Words mean nothing She's lost

She's lost Words mean nothing She's lost
