I am broken
But I am still with you
I am traveling alone
But I can still see you here

And I hope that you can see me
Because I can't see anything but you

And I want you to come home
I've spent so many days here on my own
And I hope that you will see me
And with you I can finally be free

Your voice echoes in my mind
All that you have left behind
I am waiting by the phone
for you to realize that I am still here alone

And I hope that you can hear me now
Because I won't hear anything but you

And I want you to come home
I've spent so many days here on my own
And I hope that you will see me
And with you I can finally be free

And I want you to come home
I've spent so many days here on my own
And I hope that you will see me
And with you I can finally be free

And with you I can be free, finally.
