I will come for you at night-time
I will raise you from your sleep
I will kiss you in four places
As I go running along your street

I will squeeze the life out of you
You will make me laugh and make me cry
And we will never forget
You will make me call your name,
And I'll shout it out to the blue summer sky

And we may never meet again
So she'd your skin and let's get started
And you will throw your arms around me
Yeah, you will throw your arms around me

I dreamed of you at night-time
And I watched you in your sleep

I met you in high places
I touched your head
And touched your feet

So if you disappear out of view,
You know I will never say goodbye
And though I try to forget it,
You will make me call your name
And I'll shout it out to the blue summer sky

And we may never meet again,
So she'd your skin and let's get started
And you will throw your arms around me
Yeah, you will throw your arms around me

You will throw your arms, You will throw your arms
around me
You will throw your arms around me
