I don't need to follow any rai-ainbows
Search the world to find my drea-eam come true
And I don't need a lucky star-ar to gui-ide me
I found my treasure in you

I don't need to climb another mou-ountain
Set my sail across the se-even seas
The paradise that I was always longing for
Was found when you loved me

And now my greatest joy is loving you-ou
The hope I lost was found and made anew-ew
Now my lonely nights are fin'ly throu-ough
I have found my life in loving you

I don't need to pray a prayer u-una-answered
Make a wish that never never come true
For I have found my every-y a-answer
My every wi-ish is you

And now my greatest joy is loving you-ou
The hope I lost was found and made anew
Now my lonely nights are finally through
I have found my life in loving you

I don't need to follow any rai-ainbows
Search the world to find my drea-eam come true
And I don't need a lucky star-ar to gui-ide me
I found my treasure in you...
