Fullmoon in the sky
Your scent is carried by the breeze
I yearn for your body
Let us unleash bestiality on this night
My goddess of lust
Bow now to the Goat of Mendes

Voluptuous female I'll possess you
In lustful mayhem

Joining in blasphemous rites
We dwell on the threshold of Azi's domain
Your tongue wraps my phallic battering-ram
I desecrate your damp temple cleft

Your silken flesh I crave
Your sinful juices I drink
In lustful mayhem
