This is the night of the metal jackets. Headbangers
United, pins and patches. Raising our fists we drink
Beer. Yelling supremacy showing no fear...
Spikes, Leather and Bullets. Forging the Demon's
Blade.
Spikes, Leather and Bullets. Forging the Demon's
Blade...
Into the glory we ride. On heaven the fire we light.
Under this flag we live. To the moon our souls we give...
From hell we create the storms. At dusk we show the
Horns...
Spikes, Leather and Bullets. Forging the Demon's
Blade.
Spikes, Leather and Bullets. Forging the Demon's
Blade...
Lust and blood we sweat. Nailing the infidels and
posers
Threat. This is the underground power. Celebrate with
us
The victory hour...
Spikes, Leather and Bullets. Forging the Demon's
Blade.
Spikes, Leather and Bullets. Forging the Demon's
Blade...
