"Visual Conquest"

I gaze through the waters to see another reality
To a place beyond hope and fear
Seen visions of an unspoken paradise
When will I drift into my own reality
Oh, the beauty of images seen through fire
An altered place
to taste the blood and to become my illusion
As I fade away like sand
Now I see the line between space and time
A dimensional state
Explore a place through the dark catacombs of your
mind
My visual conquest
To open the doors to my future world
I see hell's fire burn below my feet
To become animal of my past primate
To kill again, of the land, in the night
Second sight, the third eye, to see with my mind
The knowledge
To change existence, mutile beyond the norm
The hideous nothing, the ultimate terror

To explore the mind, open oblivion's door

The secret landscape of the mind
