If it's a bad day, you try to suffocate
Another memory scarred
If it's a bad case, then you accelerate
You're in the getaway car
You don't care about us (oh oh)
You don't care about us (oh oh)
You don't care about us (oh oh)
You don't care about us
If it's a bad case, you're on the rampage
Another memory scarred
You're at the wrong place, you're on the back page
You're in the getaway car
You don't care about us (oh oh)
You don't care about us (oh oh)
You don't care about us (oh oh)
You don't care about us
It's your age, It's my rage
It's your age, It's my rage
You're too complicated, we should separate it
You're just confiscating, you're exasperating
This degeneration, mental masturbation
Think I'll leave it all behind, save this bleeding heart of
mine
It's a matter of trust
It's a matter of trust
It's a matter of trust
It's a matter of trust
Because
You don't care about us
You don't care about us
You don't care about us
You don't care about us
It's your age, It's my rage
It's your age, It's my rage
