

Planet Funk "Inside The People"

Visit "[Inside The People](#)" on MotoLyrics.com

Inside all the people a jet black spark
rippling like magma in their hearts
under all the hot lights n' gyroscopes
physically pulsing as they shake their bones

feeling kinda lonely with a vodka and coke
feeling kinda lonely underneath the soul
I was... feeling kinda lonely

boys are shaking girls are rotating
make my real life melt into the floor
boys are shaking girls are rotating
make my real life melt into the floor

inside all the people an onyx flame
flickering and rising into their brains
smothered in a blue light
covered in a noise
Oscillating girls
Oscillating boys

feeling kinda lonely with a vodka and coke
feeling kinda lonely underneath the soul
I was... feeling kinda lonely

boys are shaking girls are rotating
make my real life melt into the floor
boys are shaking girls are rotating
make my real life melt into the floor

make my real life melt into the floor

boys are shaking girls are rotating
make my real life melt into the floor
boys are shaking girls are rotating
make my real life melt into the floor
