Could you push your button?
Could you feel that switch?
Could you push your button, like you rub an itch?
Can you find that button?
Can you find that switch?
Can you keep on pressing?
When you here the click.

Can you see me comin' now?
(See me switchin, see me switchin)
Can you see me switchin now?
(See me switchin, see me switching)

Look across your body,
Look into your eye,
underneath the surface,
something is awry.
Can you feel it pushing?
Pushing from inside,
things you cannot say,
will materialize.

Can you see me comin' now?
(See me switchin, see me switchin)
Can you see me switchin now?
(See me switchin, see me switching)

(Push it, push it)

Can you see me comin' now?
(See me switchin, see me switchin)
Can you see me switchin now?
(See me switchin, see me switching)
