So I guess I'm through.
You said it just wouldn't work out.
And the time goes on,
Much to my regret.

Please don't go she says.
It's just too much right now.
This feelings unbearable pain.
You chose the perfect time
My world is crashing and,
This feelings unbearable pain.

So what I broke?
You won't hold me here.
And the road goes on.
Where does she run now?

Please don't go she says.
It's just too much right now.
This feelings unbearable pain.
You chose the perfect time
My world is crashing and,
This feelings unbearable pain.

Please don't go she says.
It's just too much right now.
This feelings unbearable pain.
You chose the perfect time
My world is crashing and,
This feelings unbearable pain.

Please don't go.
Please don't go.
This feelings unbearable pain.
Please don't go.
Please don't go.
This feelings unbearable pain.
This feelings unbearable,
This feelings unbearable,
This feelings unbearable.
