This is all a game to you
I know it is I've known
From the beginning now (beginning now, now)
This is all a game to you at first I missed
You but then I realized
That now you're foolish.

And sometimes I have to think
About what what we could be and
Here; here I'm stuck now waiting
For something to come to me
But now, we're done now you should
Know that we are done, we're done
Yeah-hah-hah

Forever ever after, forever ever after
Forever ever after we're done. I tell myself
I love you so but I was a fool to think that.
Maybe I loved you, there was something there,
But now it's gooonnnnnneeee!

Forever ever after! For-ever -ever after
Forever ever after it's done ohohohohohoh
We, we had something great in the beginning
And then you had to go off and ruin it
I was so disappointed then. but time goes
And you move on time passes so hold on!

FOREVER EVER AFTER
FOREVER EVER AFTER
FOREVER EVER AFTER
