Lookin' for a way out, lookin' for a hole

Waitin' for the right time, we're gonna roll

I got my eye on a company ship

one of these nights we'll take a little trip

{chorus}

two of us, that is just enough

to make a virgin planet to paradise

Adam and Eve, and our garden of Eden's

on the other side of the skies

of the skies

If you work for the man, you need a little pull

yes sir, no sir, three bags full

{repeat chorus}

gonna grab my chance, gonna make my break

give, give, I'm gonna try a little take

under the eyes that never rest

bird's gonna fly, gonna leave the nest

{repeat chorus}
