power -- what holds it up
what makes it fly
that can't be done
power -- the boys got the right stuff
I see it in his eyes
he thinks it's fun
power -- now be a good little man
can you show me that again?
I bet you can't
power -- o.k. you win you can
but point it away
don't get the boy mad
oh we'll keep you
we'll be watching you
and we'll study you
and artie, oh we'll teach you
so you'll use it right
and you'll join the fight,
and artie, oh, we need you
when your country calls
and these hallowed halls are waiting
oh, this is straight from the top
we'll never stop
we can't be stopped
with your power
we need your power
power -- do you see these stones?
can you make them burn from miles away?
power -- no you can't go home
we know you'll learn to love this place
oh we'll keep you
we'll be watching you
and we'll study you
and artie, oh we'll teach you
so you'll use it right
and you'll join the fight,
and artie, oh, we need you
when your country calls
and these hallowed halls are waiting
oh, this is straight from the top
we'll never stop
we can't be stopped

with your power
we need your power
