So pleased to meet you  
He sais  
Under the skin  
It's been a long time  
Since you welcomed me in

You see this old place  
Is a wasteland  
For all your last hours

Out of place  
Out of place

It was  
It was  
I was feeling all right

Take it back  
Take it back  
Under your knife

Within the sheets  
A killing season  
Your love is weak  
Stillborn and beating  
Hold on to your dreams  
That will die  
By the morning light  
Out of time  
Out of time

It was  
It was  
I was feeling all right

Take it back  
Take it back  
Take it back tonight

It was  
It was  
I was feeling all right

Take it back  
Take it back  
Under your knife

Within the sheets  
Of surgery  
That's under my knife  
Catch your breath  
And forget what happened last night  
You don't my face  
You don't my name  
Gone by daylight  
You don't know my face  
You don't know my name  
Under the knife

It was  
It was  
I was feeling all right

Take it back  
Take it back  
Take it back tonight

It was  
It was  
I was feeling all right

Take it back  
Take it back  
Under your knife
