New York City, the world of madness,
Hundred of gangs thousands of murderers

Come on fight you warriors!
You haven't to live in pain,
So you will see, that it's ok!

Day after day, they play their criminal games
Night after night, they fight side by side.

Come on fight you warriors!
You haven't to live in pain,
So you will see, that it's ok!

Come on fight you warriors!
You haven't to live in pain,
So you will see, that it's ok!
