My psycho neighbours at it again
What's the problem? [the problem]
There's no one there except her friends
Which she has none of
Rambling on, No end is seen
For all the anger [the anger]
If her words have meaning I'm screwed
Is she capable or able

That girl is at my door she's gonna break it down
That girl is at my door she's gonna break it down
Oh should I let her in or let her break it down
That girl is at my door she's gonna break it down

Screaming swearing late at night
No sleep 'til morning [morning]
Is she aware how insane it seems
What does she think of
It's difficult not to let affect
My mind grows weary [weary]
My other neighbors can agree
That she's not stable or able

That girl is at my door she's gonna break it down
That girl is at my door she's gonna break it down
Oh should I let her in or let her break it down
That girl is at my door she's gonna break it down
That girl is at my door she's gonna break it down
That girl is at my door she's gonna break it down
Oh should I let her in or let her break it down
That girl is at my door she's gonna break it down
