She got the friends but she needs a location,
he's got a local but he needs the supplies
Her friends have supply so they all get together
Now everybody's welcome to the party tonight
It's time to redefine the new school rude boy two tone
suits,
hang'em by the door
Super orgy porno party, super orgy porno party
I've never personally been to the big party
but I suppose that if I did I'd have a good time
Lots a folks I see do it regularly and they tell me that it
feels just fine
It's time to redefine the new school rude boy two tone
suits
scattered on the floor
