I been standing here for hours
Staring at all the bunny flowers
That pop up when you come around
Hoping you'll pluck 'em off the ground
And I feel my heart explode
When that girl walks down the road

I been standing here for hours
Putting up with November showers
Pony rabbit nibblin' at my shoelace
I don't mind cuz I'm dreamin' of your pretty face
And I felt my heart explode
When that rain turned into snow

Oh no! Woopsy daisy!
Oh, she drives me crazy!
Takes out my brain and replaces it with candy!
Oh by gosh! By golly!
Holy moly, Molly!
Pining for you is my modus operandi!
I been standing here for hours
Throwin back a couple-a whiskey sours
Setting off honey fire-crackers
Thinking when she comes it won't impact her
And I felt my heart explode
When I saw that girl explode
