"Acid Reaction"

Visit "[Acid Reaction](#)" on MotoLyrics.com

Never fleeting and the maggots are eating away at all I
am
Never leaving... the acid is still deteriorating
Hands are on my head about to fall past my face and it
still burns

And this reaction seems it's never ending
The flesh just melts away just like the reactions

Wash out your eyes and face me... wash out this
wound: it's so easy
Wash out your burns and face me - wash out your eyes
Wash out this separation

I can't forgive the promise that was never ever fulfilled
In my head your reactions/distractions/reactions

The flesh just melts away and it still burns
Exposing organs that burn inside of me

Reactions and my heart for you
