It's nearly 3 a.m. and still no sight of him  
When it comes to love, I'm in the dark  
Lord, I don't understand, why I stand by my man  
All he's ever done is break my heart

Won't You send down an angel from the blue?  
To show me the righteous thing to do  
Oh, I'm calling out to You  
Send down an angel to get me through

I'm not the praying kind but it can't hurt to try  
I can't find the answer by myself, I need help

Won't You send down an angel from the blue?  
To show me the righteous thing to do  
Oh, I'm calling out to You  
Send down an angel to get me through

Won't You send down an angel from the blue?  
To show me the righteous thing to do  
Oh, I'm calling out to You  
Send down an angel to get me through
