Bring the flesh - I will defile it, bring the soul - I
Will deny it
Iâ€™m eyeless, but I can see, your fear - it leads me
Multiplies hostility and the primal pleasure of
Domination

All fear us, still admire us, our ways so wicked, yet
So pure
Devoid of feeble conscience, transcending all remorse
We never choose sides, just level what we meet

So you repel us... resistance wonâ€™t bring you any good
We are to stay forever to impose the death-cult rule
While spewing our seeds through the vastness of
space
We cleanse and mow down the ones like you
Bastard children of a nonexistent god

Blackness incarnate, soulless evil
The anti-life Goddess yearns to awaken...

Immaculate our domain, beyond the notion of morality
Soullessness prevailed, infestation decimates you

Blasphemies inflicted, all innocence violated
No deliverance for anyone, our sovereignâ€™s where we
Stand

Kill, breed, spread, survive - a pattern behind the
Cunning
Instinctual imperative, the calling of the homeworld
Beware our seed

Blackness incarnate, soulless evil
The anti-life Goddess yearns to awaken
Allow her embrace to lead you to our nothingness
Purity is chosen, not earned
You have been offered, how do you choose?

Bring the flesh - I will defile it, bring the soul - I
Will deny it
Iâ€™m eyeless, but I can see, your fear - it led me

To the altar of my bloody divination
