They set the trap, your phone was tapped
This is "Concrete Shoes"

We know you lied, you thought I died
They set the trap, your phone was tapped
We're watching you, we know what you do
It's murder see, in the first degree
And now it's time

Concrete shoes, pay your dues
Special concrete shoes

An overdose mixed in my drink
I found the bottle by the sink
And now you're here you're all alone
We cut the wires to your phone

And now it's time

Concrete shoes, pay your dues
Special concrete shoes

An overdose mixed in my drink
I found the bottle by the sink
And now you're here you're all alone
We cut the wires to your phone

And now it's time

Concrete shoes, pay your dues
Special concrete shoes

Concrete shoes, concrete shoes, concrete shoes
