(Take it to the streets, take it)  
(Take it to the streets)  
(Take it to the streets, take it)  
(Take it to the streets)

Everyone I know has a partner  
Everyone I know has a friend  
A friend that's with you through hard times and  
changes  
Someone who hangs 'til the end

Now there's a bottom line to what I'm sayin'  
There's a message here for all occasions  
When you're out on the streets and you see someone  
who needs you  
Reach out your hand, make them part of your plan

Come on and take it (take it to the streets, take it)  
We got to make it (take it to the streets)  
I want you to take it (take it to the streets, take it)  
We're gonna make it (take it to the streets)

Take a look around at the people  
See their hearts yearning to be free  
Time has come to make a stand  
Take it to the streets 'cause the power's in your hand

Come on and take it (take it to the streets, take it)  
We got to make it (take it to the streets)  
I want you to take it (take it to the streets, take it)  
You know we're gonna make it (take it to the streets)

Come on and take it (take it to the streets, take it)  
You know we're gonna make it (take it to the streets)  
I want you to take it (take it to the streets, take it)  
You know we're gonna make it (take it to the streets)

We're gonna put our hands together (take it to the  
streets, take it)  
Do what we can to make it better (take it to the streets)  
Come on and take it (take it to the streets, take it)

You know we're gonna make it (take it to the streets)

Come on we got to take it (take it to the streets)

Reach out your hand (take it to the streets)

Now it's known to make a stand (take it to the streets)

Come on and take it (take it to the streets)

You know we're gonna make it (take it to the streets)

Oh oh take it (take it to the streets)

You know we're gonna make it (take it to the streets)

You know we're gonna make it (take it to the streets)

Oh, take it (take it to the streets)

You know we're gonna make it (take it to the streets)
