"Screams From The Holocaust"

Visit "[Screams From The Holocaust](#)" on MotoLyrics.com

Hellish deathstrike, flash of blinding light, destroyed
All in sight
No time for fear, death becomes clear, destroying the
Sphere
Cities vaporized, life neutralized, apocalypse realized
The future died that day, nothing more to say,
humanity
Fades away

Screams from the holocaust - still ringing in your mind
Nightmares relive the terror that you cannot leave
behind
Screams from the holocaust - still echoing inside
Live forever with the horror that will haunt you 'til you
Die

Somehow you survived, to watch the world as it died,
no

Reason to be alive
Everything crushed, skies of radioactive dust, watch
the
World rust
Walk the land alone, ruins of your home, pick through
the
Bones
None left to blame, this nuclear game, proved utterly
Insane

Screams from the holocaust - still ringing in your mind
Nightmares relive the terror that you cannot leave
behind
Screams from the holocaust - still echoing inside
Live forever with the horror that will haunt you 'til you
Die
