You can use anyone but it won't be long
'Til somebody finds there's something wrong
Now four seasons have passed, buried at last
And covered in ash our love is gone

Say whatever you want but the beat goes on
It's better for us to stay away
Wait, I have enough faith, courage and strength
Just to move on and meditate

Let's dance, let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow

Now just like before we're both on the floor
And we will get out of this another time
And as we're shaking hands we understand
You go your way and I go mine

Let's dance, let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow

Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow

Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad

Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad

Falling down and falling down
Touch the ground, touch the ground

Going mad, going mad
Not too bad, not too bad

Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad

Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow

Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow

Let's get down in Barcelona
Going mad, going mad
Not too bad, not too bad

Let's get down in Barcelona
Going mad, going mad
Not too bad, not too bad

Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad
