I can see why you would be  
The path I never chose to take.  
You sit there with no worries on your mind.  
And I stand here full of grief.  
And it seems that I loved you all night long.  
That other guy won't remember a thing.  
But I hold it all inside.

And I see you in the night,  
And I feel you in my life.

Give me a clue cause I want a chance,  
To find you out before he does.  
Am I really lost forever?

And I see you in the night,  
And I feel you in my life.

Do you really enjoy my pain?  
Can you feel it?  
I've known you too long and I want you back  
Back in my arms

And I see you in the night,  
And I feel you in my life.

In the night  
In the night
