Confliction affair to applaud
The jaded reborn and the weary
No one wants to live their life like
Their standing in front of a wall
If you come away with me where gonna be reborn

Deaf I see her shattered face only hoping I can trust
myself
I believe there's something more, take me back to
where I lost it all

Born to rot in this shell
I bury my life for you
Born to rot in this shell
I bury my life for you

I didn't come to sit in silence
There's a story still untold
I'd try to look away before you hit the floor

I tried to see something I wanted you... you and I to be

Obsession I feel like I'm throwing my life away for
something better
I'll make my own mistakes but in time will this metaphor
do anymore
Obsession I feel like I'm throwing my life away for
something better
But I'm running I can't betray the same place I hide
awake when everything dies

I left alone I took a breath is it worth me trying to resist
Am I always as quiet as you?
I won't pretend you were mine
I can't control what I don't create
I took you higher I took you there

Born to rot in this shell
I bury my life for you
Born to rot in this shell
I bury my life for you

When it stops you won't listen anymore
You tell me you love me.
