V.I.P.

(Chorus)

I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance

(Verse I)

Girl you know I like that, every time that I see you
wanna wife that
Let's roll V.I.P. we can light that, I'ma get my crew and
I'll be right back
Or we can smoke to the sunrise cuz I need a girl that
like young guys
Cuz we the old school alumni's yea we stay dumb high
Got the trees in the back heat in the lap need a reason
to clap
Down south shorty at ATL or any body tacular of how we
dwell
Carolina baby at brothers three and club royal where I
love to be
Got my thugs with me we hug the streets, hit the strip
club low dubs with P
In the parking lot where the trucks be I got shorty giving
dome and she loving me
Now back how you work that pose shake that ass like its
out of control
Luckily I got my pockets on swole and I'm about to blow
this whole bank role
The way you move I'm so hypmotized I don't know if it's
ya breast or your thighs
But I know you make my nature rise, I eat ya girl like
cakes and pies
I hate those guys cuz they haten on me, my fam in the
back they waiting on me
Listen up boo this the way it's gone be straight to the
club or strip in the jeep
Me and my peeos got one's for ya hun, bring ya whole
crew you can all get done
Take off ya clothes we can all have fun and tap that ass
till I make you cum

(Chorus)

I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance

(Verse II)

I love a chic like five three thirty four but she might be a
double d
On the floor with that ass right in front of me, I never let
chics like that trouble me
Cuz I come through in the bubble V, and she can't help
it cuz she loving me
I don't know if it's the thug in me cuz ya girl keep
huggin me and buggin me
You know how I do hop in the coup and leave shorty
right on the stoop
Then go back to the strip club, cuz it be the only place
that I give love
You can catch me there almost every night asking
shorty how she do that right
A dime in the face and her body tight, dropping that
ass like sho ya right
Barry White cuz I'm tryna go deep and put my hands on
both cheeks
After that we ain't even gotta speak until I see you at
the club next week

(Chorus)

I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance

Now all the ladies in the placeâ€¦when you hear the
baseâ€¦Let me see ya just drop
Let me see ya just dropâ€¦Let me see ya just
dropâ€¦Let me see ya just drop

(Chorus) 2x's

I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance
I like the music, it makes me dance
