Here we go!

I might she'd a tear for you  
Although be sure, it can't face the truth

Even when I didn't know how, I knew it  
If I was a different, you never grew  
You deserve these pieces of your holy crap

One thing, I admit, on my acts wasn't all good  
Only has been the best of me  
One by one strips in front of me  
And today the ghost has lived within mirror  
Finally goes out to show itself

I might she'd a tear for you  
Although be sure, it cannot face the truth  
You felt these chills inside  
From your arms to end on your head, once before

I just expected was to come August  
And when it came, began to rain  
You and me together till dusk  
Everyone laughed and didn't know why

And now pay attention, hear my voice  
Pray to your angels, see daemons where's the storm  
And listen carefully, how much more you'll wait?  
Answer my questions, where you go?
