There's a space
Before explode itself
I can remake it
I can't explain it

I know, it's fake
The time, my sun

Naked, cold
With clothes on, it's a lie
I can destroy it
I can't wait my way

I know, it's fake
The time, my sun

I know my name
The sound, our game
I close my eyes
The doors seem the air

I know my name
This sounds to an orgasm
My eyes wide opened

I run quickly, I'm going away
Just living whole my life
Nights cloudy, too fast

I know my name
The sound, our game
I close my eyes
The doors seems the air

I know my name
This sounds to an orgasm
My eyes wide opened
