Like a firefly just shinin' in the darkness  
Lighting your path to the only one real world  
Climbing the sacred trees  
To fill that inner emptiness

Leaving and giving up your desires  
Forbidding pleasures, keeping alone

The god delusion, growing inside your mind  
The fake illusion, creeping to your saints

All in round, smoking, drugged  
Out of the know where are you now... go?  
That is not the all  
Swimming through the sea

Leaving and giving up your desires  
Forbidding pleasures, keeping alone

The god delusion, growing inside your mind  
The fake illusion, creeping to your saints  
The god delusion, growing inside your mind  
The fake illusion, creeping to your saints  
The god delusion, growing inside your mind  
The fake illusion, creeping to your saints

Like a firefly just shinin' in the dark
