Bad girls!
Stay out all night in search of
Bad boys!
Ready to play their games like
Bad toys!
Give them to me,
I can play to you the magic of love and fire

I need your touch
Electricity's running wild
It's not too much
Pull the trigger on my desire
I need your hands,
Baby give them to me!
You charge my battery,
You reload my power!

*Energy love! Hot like a fire!
I can't say no to the passion you give to me
Energy love! Don't be afraid!
You're the only one that keeps alive my desire

*repeat

Energy love!
