I'm so in pain but I understand
everything that you try to say
I need your arms so many times
guess there is no way to fix the shame
I'll be away to another stay
cause I can't stand to see your face
if you ask me to stay I'll want your ,
trying to fix all my mistakes

But where do I go when it gets cold
when I get through the stormy days
if you leave me alone all of mine gone
I need nobody else but you
Guess I was wrong I apologize
for the pain I put you through
the , and she was here
till the day she kiss me goodbye

I'm so in pain but I understand
everything that you try to say
I need your arms so many times
guess there is no way to fix the shame
I'll be away to another stay
cause I can't stand to see your face
if you ask me to stay I'll want your ,
trying to fix all my mistakes

I'm so in pain but I understand
everything that you try to say
I need your arms so many times
I'm so in pain but I understand
guess there is no way to fix the shame.
