Whoa, I've got a secret  
Nobody knows  
The thrills and the glows  
The ebbs and the flows

Whoa, I've got a secret  
It's staring in me  
It won't let me free  
My future to be

Yes, I've got a secret  
It changes me as time goes by  
It's strange that no one knows why  
But I

What's happened to me is wondrous to see  
My future will be married to me  
That is my secret

(Nobody knows)  
Nobody knows  
(The thrills and the glows)  
The thrills and the glows  
The ebbs and the flows

Whoa, I've got a secret  
(It's staring in me)  
It's staring in me  
(It won't let me free)  
It won't let me free  
My future to be

Yes, I've got a secret  
It changes me as time goes by  
It's strange that no one knows why  
But I

What happens to me is wondrous to see  
My future will be married to me  
That is my secret
