[Verse 1]

It's just another kind of living  
When your thoughts are not just a thoughts  
You can't wait to see the day you'll believe in  
Cause it's the only one that you've lost

[Pre-chorus]

So you sit and stare  
Trying to understand

[Chorus]

Now you're running away, running away  
Feeling something again, something again  
But you'll never see,  
Many of your dream  
Every word that was said, word that was said  
Kills you inside your head, inside your head  
If you're strong enough  
Take it as light in the dark

Let it BURN!

[Verse 2]

Everyone thinks that you were right  
Cause last night you promised not to cry  
Even your smile is not the same  
You know that there's something more to learn

[Pre-chorus]

So you sit and stare  
Trying to understand

[Chorus]

Now you're running away, running away  
Feeling something again, something again  
But you'll never see,  
Many of your dream  
Every word that was said, word that was said  
Kills you inside your head, inside your head  
If you're strong enough  
Take it as light in the dark

Let it BURN!

[Bridge]

Don't ruin your life for fear  
You're too young for this  
Now you see the wave of pain  
Hold on and pray  
You can't be save and tamed  
One day you'll understand  
That real worries about time  
That you've got to be alive!

[Chorus]

Now you're running away, running away  
Feeling something again, something again  
But you'll never see,  
Many of your dream  
Every word that was said, word that was said  
Kills you inside your head, inside your head  
If you're strong enough  
Take it as light in the dark

Let it BURN!

Let it BURN!

Let it BURN!

Let it go away, go away  
Let it go away

Let it burn
