Ever dreams  
Ever true  
Ever cool  
Ever you  
Ever power  
Ever proud  
Just say it ever loud

You can be whatever girl you wanna be  
Ever true, ever you, ever me  
Every girl is me  
Don't you ever let them get the best of you ever  
Cause there ain't nothing you can't ever do  
You can be whatever girl you wanna be  
Ever true, ever you, ever me  
Every girl is me

Hey girls come and gather around  
Bout to tell ya how it's going down  
We're the ever girls in the ever world  
Take notes you're in ever school  
Now you're playing by the ever rules  
Giving you an ever view  
The rest is up to you

Reach for the stars (Stars)  
They're shooting from the sky  
And dreams aren't that far  
They're what you have inside  
Who brings you joy (Joy)  
Have faith in you will find (Find)  
Dreams aren't that far  
They're what you have inside

Don't you ever let them get the best of you ever  
Cause there ain't nothing you can't ever do  
You can be whatever girl you wanna be (Wanna be)  
Ever true, ever you, ever me  
Every girl is me

Doesn't matter if you're short or tall  
It's not about your color at all

Anyone can be an ever girl like me  
Let's go on an ever ride  
You'll never fail one as you try  
That's the ever way  
Just live it ever day

Reach for the stars  
They're shooting from the sky (From the sky)  
And dreams aren't that far  
They're what you have inside  
Who brings you joy (Brings you joy)  
Have faith in you will find  
Dreams aren't that far  
They're what you have inside

Don't you ever let them get the best of you ever (Never)  
Cause there ain't nothing you can't ever do (Ain't  
nothing you can't ever do)  
You can be whatever girl you wanna be (You can be)  
Ever true, ever you, ever me (Ever true, ever you, ever  
me)  
Every girl is me

Every girl is you and me  
Ever true, ever you, ever me  
Every girl is me
