If I knew just what to say  
I would make it go away  
All this pain inside  
I don't wanna fight  
I refuse to say goodbye  
It's because I'm much too proud  
To apologize, when I know your right

There is so much I  
Should've told you  
But I was afraid  
Come to me, let me show you

CHORUS  
Cuz now I have to let you know  
I don't wanna lose your love  
It's to live and to die for  
I don't have a doubt, I'm sure  
I never felt this way before  
I could live, I could die for your love
