I got a letter, story of frustration  
I got a number, counting complications  
It's got me running from my situation  
Blame it on my own imagination

(roll the dice)  
And tell it like it is  
(count it twice)  
And call it was it is

RAH!

1,2,3 If you just let it be  
4,5,6 Its an experience  
8,9,10 Do it all again  
While we're waiting on a lucky number 7

I wouldnt talk if it's not a solution  
A second thought is only an illusion  
And talking trash just adds to the pollution  
Blaming it on all of my confusion

(must be strong)  
To tell it like it is  
(cant be wrong)  
Dont tell it what it is

RAH!

1,2,3 If you just let it be  
4,5,6 Its an experience  
8,9,10 Do it all again  
While we're waiting on a lucky number 7

ahhh..oooooh

Waiting on a lucky number 7

I need a 7 or maybe 11  
Its some kind of heaven for the lucky end  
I need a 7 or maybe 11  
Its some kind of heaven for the lucky end

RAH!

1,2,3 My advice  
4,5,6 Roll the dice  
8,9,10 Take a chance  
While we're waiting on a lucky number 7

Could be luck (if you just let it be)  
Dont you run (it's an experience)  
Be yourself tell it like it is

RAH! RAH! RAH! RAH!

1,2,3 If you just let it be  
4,5,6 Its an experience  
8,9,10 Do it all again  
While we're waiting on a lucky number 7

1,2,3 If you just let it be  
4,5,6 Its an experience  
8,9,10 Do it all again  
While we're waiting on a lucky number 7

ahh ahh ahh ahh ahh ahh

While we're waiting on a lucky number 7..RAH
