Heed your calling  
Watch angels crash into the ground  
See them falling  
Watch heaven burn into the ground

Wrong!

How can u heed the word of God  
If that fucking god has never even spoken  
I entered in the dark... unto a greater darkness

Tell your chosen  
Prayers are merely crutches to the bound  
Hell has frozen

But the earth... still turning around

Wrong!

How can u heed the word of God  
If that fucking god has never even spoken  
I entered in the dark... unto a greater darkness

I remain  
Religiously devout  
To my uncertainty

Seems  
Someone here  
Forgot to spit  
Heaven sent  
Sacrament
