Whoa, baby girl  
You ain't been with someone like this  
Had chills like this  
Tell me how would it feel  
You know what

Bet, you ain't never never met a playboy like me  
I'll lick you from head to toe  
First thing in the morning, morning  
Before you know it, girl, you be shaking at the knees

I know my love's off the hearse  
You better believe it, shorty  
You can say, I'm like drugs  
'Cause after I've given my love

Girl, I bet you be fiending, fiending  
I have them things, recognize that I am that man  
I hope you've been peeping game  
I'm trying to tell you baby

I know you ain't never  
Met a playboy like me  
I know cause you cuss a lot  
And with me you're smiling, yeah

My love don't play  
(This is your lucky day)  
Ooh girl, I can hardly wait  
Wait to see you shorty

And so it seems  
(You've been moping around)  
Don't let yourself get you down  
(Don't get discouraged, baby)

Ooh baby, I got you  
(Better days headed your way)  
I think we should celebrate  
I bet you ain't ready, baby

I know you ain't never

Never met a playboy like me  
I bet you've been cheated  
Don't worry I got you covered, shorty

I know I ain't perfect  
From head to toe I'm real as can be  
And I know I'm up in your mind  
Lovin' is on your mind

I know you have never felt like this till you holla  
Never known a playboy like me  
Let me sweep you off your feet  
I know how to get you heated, shorty  
Send you chills from your head to your feet  
You best to believe it, girl

I know you ain't never  
Never met a playboy like me  
I'm searching you for your spot  
(I'm a get'cha horny, shorty)

If you don't got one  
Well, that's okay, oh girl, 'cause I'll feel you up  
(You better tell her smoke, yeah)

Nothing like a hand in your butt  
Wait till you fall in love  
'Cause I be giving it to you  
Give it to you love

(Wait till I do you, baby)  
You see even if I ain't your type  
I know I'm gonna get'cha right  
You better believe in shorty

Rub ya, rub ya, rub ya  
Kiss ya, kiss ya, kiss ya  
Do ya, do ya, do ya  
Feel like nothing before

Love ya, love ya, love ya  
Calling, calling, calling  
Running, running, running  
Running back for more
