"My Life"

Visit "[My Life](#)" on MotoLyrics.com

Don't want no one to tell me what I must say or do
I'm only a human being yeah like you
My mum and dad goes on at me not to come home late
But when I'm in from work my tea's cold on the plate

Oh what's my life coming to
These people drive me round the bend
Please somebody tell me
When all this is gonna end

I get to work at eight my boss starts on at me
He asks me why I'm late I didn't get in til three
He tells me that I'm sack I didn't think it funny
I said before I go you better give me my weeks money

Oh what's my life coming to
These people drive me round the bend
Please somebody tell me
When all this is gonna end

Repeat chorus
