Fighting for a crime that you never comitt
Getting misslead and blind, what is not there to miss

I'm getting sick of this
To witness this
Day after day

Let your rage wail out
To your enemies
Can't back down, you must
Always fight it
Let them know we're not to mess with
We stay strong as long as we stay united

Why won't it just stop
Their I'll mind makes me sick
Right back from the top
Clock is starting to tick

It's running out of time
I mean it
Why wont you just

Let your rage wail out
To your enemies
Can't back down, you must
Always fight it
Let them know we're not to mess with
We stay strong as long as we stay united

No, I don't know how much more I can take

Let your rage wail out
To your enemies
Can't back down, you must
Always fight it
Let them know we're not to mess with
We stay strong as long as we stay united
